# Homeschool Nature Series

Fall 2017- Spring 2018 Schedule

**October 19**

## **What's happening at the zoo?**

Learn what the zookeepers know! Join us in this class to learn about animal classification, behavior, care, and meet some animals up-close!

**November 16**

## **Squid lab**

Did you know a squid has its own pen and ink? Come explore the depths of the ocean with us through a squid dissection!

**March 22**

## **Get outside!**

Join us on a nature walk and learn about native species, animal tracks, and food webs. You will also get to meet some native animals up-close!

**April 19**

## **Frog lab**

What do you and a frog have in common? Find out during this dissection lab where you will learn about a frog's anatomy and how it is similar to your own.
